## PROJECTS

---

### Blotz Task

- Utilised react to build reuseable front-end components and integrated API to fetch user created data.
- Responsible for building API endpoints with .NET8.
- Participated in Agile practices, contributing to standup meetings, sprint planning, spec reviews, PR reviews and collaborative iteration of features to support efficient and responsive project progression.
- Used Git and GitHub or source control and repository management.
- Tech Stack: Next.js, Tailwind CSS, Shadcn, .NET8, C#, SQL server

### OgCiSum

- Used React to deign and style the UI in Web and android mobile devices.
- Implemented state management hooks to store fetched data and set up reactivity through hooks that update based on state changes, ensuring data synchronisation with minimal manual input.
- Developed a cross-platform mobile app for location-based music sharing, ensuring seamless user experience across web and Android platforms.
- Tech Stack: JavaScript, React Web, React Native, Android Studio

## EXPERIENCE

---

### Dalton College

Office Assistant

**Jul. 2024 – Present**

*Melbourne*

- Managed office operations, including filing records, and ensuring smooth daily workflows.
- Organised and maintained confidential records, ensuring data integrity and compliance with organisational policies.

### The University of Queensland

ICTE Volunteer

**Oct. 2019 – Feb. 2020**

*Brisbane*

- Coordinated and managed 10+ campus events, including cultural activities and language workshops, improving engagement by 20%.
- Mentored 50+ international students, helping them getting involved in the campus life and improving their confidence in conversational English by organising weekly meetups.
